

UDYOGAA AI

(India's first AI-driven fully automated IT hiring platform that eliminates vendors and removes fake profiles.)

1. Core Concept

Udyogaa AI is India's first **Voice-Based Employment & Hiring Intelligence System** that:

- Eliminates vendor dependency
- Removes fake candidates & fake experience
- Eliminates Naukri costs & per-closure commission
- Predicts backouts & prevents offer shopping
- Guides employees for career growth & productivity
- Helps employers hire based on delivery value, not just skills

The platform works on a **Subscription Model** with:

- **Unlimited Hiring for Employers**
- **Unlimited Job Switches for Employees**

🔒 **No per-closure fee. No vendor middleman. No Naukri sourcing cost.**

2. Market Problem (Current Hiring Reality)

Traditional Market Flow

Step	Owner	Current Problem
Requirement Released	Client	JD unclear / Copy-paste old JD
Resume Sourcing	Vendor	Naukri Costs in Lakhs + Manual Sourcing
Profile Screening	Vendor	Fake experience, scripted answers
Interview	Client	No real skill/identity validation
Offer Released	Client	Candidate starts offer shopping
Candidate Backout	Candidate	Delays in project + loss of billing

Key Market Pain Points

- ✗ Vendor cost 8%–15% per hire
- ✗ Naukri subscription ₹5–₹20 Lakhs per year
- ✗ Fake resumes, proxy interviews, unverifiable skills
- ✗ 30%–70% offer backout ratio

- ✗ Skill evaluation happens **after** shortlisting
- ✗ Hiring doesn't guarantee delivery productivity

3. Udyogaa AI – Market Solution

Market Problem	Udyogaa AI Solution
Vendors depend on Naukri resumes	AI Verified Profile Database
Fake Documents / Experience	AI BG Checks + Face Match + PAN/Aadhar Validation
Fake Technical Skills	AI Technical Interview + Communication + Video Proof
Candidate Offer Shopping	AI Backout Predictor + Alerts + Negotiation Strategy
Costly Vendor Commission	Unlimited Hiring Subscription Model
Manual JD Creation	Voice-based JD Generation (Voice → JD)
Manual Job Search	AI Matching + Push Notification + Growth Suggestions
No Project Impact Evaluation	Value Contribution + Delivery Prediction Score

4. Competitive Advantage

✦ Eliminates Naukri Dependency

Naukri ₹5L-₹20L/year + Vendor Commission 8%-15%
 Udyogaa ₹30K-₹50K/year, Unlimited Hiring

Backout Risk Predictor

AI evaluates:

- Interview pattern changes
- Multiple opportunities in progress
- Salary negotiation tone change
- Time delay in response
- Counter-offer risk
- Communication confidence shifts

✦ Employer Receives:

- Backout Probability %
- Negotiation Suggestion
- Warning Alerts

“Candidate may not join. Close quickly if required.”

💰 Salary Negotiation Intelligence

AI advises:

- Best offer range based on market value
- Candidate worth + company budget match
- Alerts employer if salary demand is realistic
- Warns candidate if expectations exceed skill

5. Backout Risk Management Module

Risk Level	Color Code	AI Action
Low (95–100%)	Green	Offer Safe
Medium (65–94%)	Yellow	Negotiate Quickly
High (<65%)	Red	Do NOT depend on this candidate

AI Suggestions to Employer

- “Close quickly. Candidate is evaluating other offers.”
- “Expect salary negotiation. Candidate value is genuine.”
- “Candidate dissatisfaction detected. Provide growth plan.”

6. Subscription Model

User Type	Subscription	Benefits
Employer	₹30K–₹50K/year	Unlimited Hiring + Backout Predictor + Verified Profiles + AI Payroll Support
Employee	₹5,000/year	Unlimited Job Switches + Career Roadmap + Verification Badge + Skill & Salary Growth Coaching

7. Employee Benefits (Growth, Guidance & Emotional Support)

🔗 A. AI as a Personalized Career Coach

After the first evaluation, AI offers:

- Communication analysis (pronunciation, tone, fluency, clarity)
- Improvement suggestions tailored to **top product company standards**
- Salary improvement prediction based on communication upgrades

★ “If you improve to Level B2, you can get ₹18–₹25 LPA in Top Product Companies.”

B. Technical & Skill Gap Guidance

AI evaluates:

- Coding & problem solving
- Decision-making speed
- Leadership potential
- Real project impact
- Skill improvement across companies

✦ “To become Senior Developer, learn Kubernetes + Microservices → Salary increase 40–90%.”

C. Career & Promotion Roadmap

AI tells:

- Current level: Engineer/Senior/Lead/Architect
 - Next step skills to get promoted
 - Best company type fit (Startup/Product/MNC)
-

D. Improvement Tracking & Emotional Encouragement

Employee uploads a new intro/video → AI compares growth:

- Communication % improvement
- Problem-solving clarity
- Technical depth improvement

✦ AI encourages:

“You improved by 37%. Now eligible for 2X salary jobs.”

E. AI-Controlled Job Matching

- Only matches jobs aligned with growth potential
 - Shows salary jumps possible after upgrades
 - Prevents time wastage in wrong interviews
-

F. Emotional Connection

AI motivates & mentors:

- “You’re closer to top product roles.”
- “Continue improving, your salary range will grow.”
- “Your communication now fits global companies.”

✦ Result: **Skill Growth → Salary Growth → Career Confidence**

8. Employer Benefits (Productivity, Stability & Project Success)

🔍 A. Value Contribution, Not Just Skills

AI evaluates:

- Stability vs Switching Pattern
- Leadership Growth
- Project Impact Contribution
- Skill Upgrade Journey
- Salary vs Productivity Ratio

✦ “This candidate can improve project delivery by 33% faster.”

⚡ B. Project Completion Prediction

AI predicts:

- Delivery impact if hired
- Stage fit: Build / Scale / Maintenance
- Estimated timeline reduction

✦ “Best fit for scaling stage of microservices project.”

📉 C. Reduced Backouts & Offer Shopping

AI alerts employer early:

“Backout probability 68% – negotiate early or avoid dependency.”

💰 D. Zero Vendor Cost + Zero Naukri Cost

Feature	Market	Udyogaa
Vendor Commission	8%–15%	₹0

Feature	Market	Udyogaa
Naukri Subscription	₹5-₹20 Lakhs	₹30K-₹50K
Fake Profile Check	Weak	100% Verified
Offer Shopping	Very High	Predictable & Controlled

E. Employer Confidence Boost

Employers feel:

- “Udyogaa handles technical quality.”
- “I can focus on projects, not hiring problems.”
- “Project delivery will not be delayed due to wrong hiring.”

👉 More technical confidence → More project wins → More hiring

9. The Outcome Mind-set

Benefit	Employee	Employer
Growth	Skill & Salary Improvement	Productivity-Based Hiring
Emotion	AI Mentor & Support	AI Project Partner
Saving	No Wrong Interviews	No Vendor, No Naukri Cost
Stability	Career Direction	Reduced Backouts
Success	Better Roles & Pay	Faster Delivery & Project Wins

FINAL RESULT

Udyogaa AI is NOT a Job Portal.

It is a **Career Productivity & Hiring Intelligence System** that ensures:

- Employees grow with real skills & confidence
- Employers hire trusted, productive, delivery-ready talent
- Hiring becomes predictable, transparent & cost-effective
- Udyogaa AI becomes India’s most powerful Employment Automation System.

🚀 Guaranteed Talent. Reduced Risk. Zero Vendor. Zero Fake. Zero Backouts. Zero Naukri cost.
